

Glenna Wilson

President of Charis Homes, LLC - Est. 2003

I entered the construction industry after I saw a need for universal design...

My passion for building began when a friend became disabled and needed housing. After searching relentlessly for affordable housing that could be accessible to someone with disabilities, I realized the great need for more of this type of housing in Stark County. This led me to eventually start Charis homes in 2003 with a goal to build high performance healthier homes. Utilizing the latest innovations in building, Charis has been awarded many accolades. Charis has won six U.S. Housing Innovation Awards since 2015, five EPA Leadership Awards, and was awarded the grand prize in 2019 for a Zero Energy Ready Home.” In 2010, I was the first female president of the Building Industry Association of Stark County, Ohio.

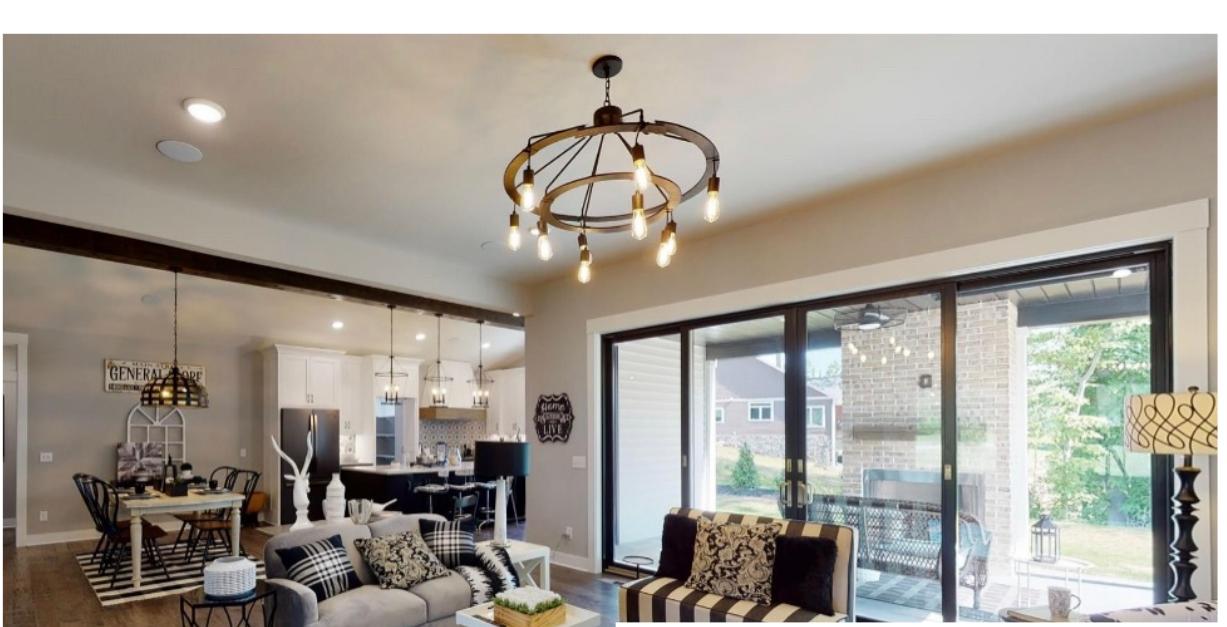

As a woman leading a company in the construction industry, I have had responsibilities and had to make decisions that my male counterparts didn't always like.

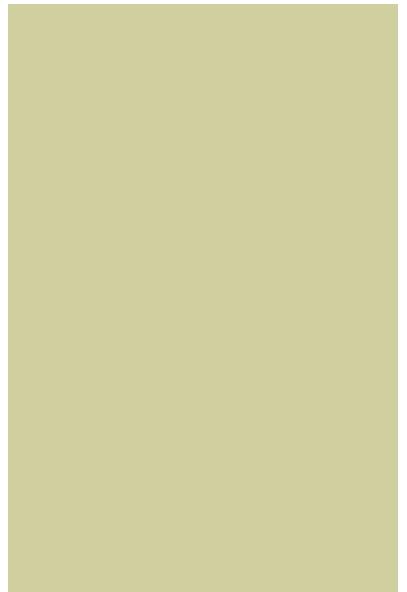

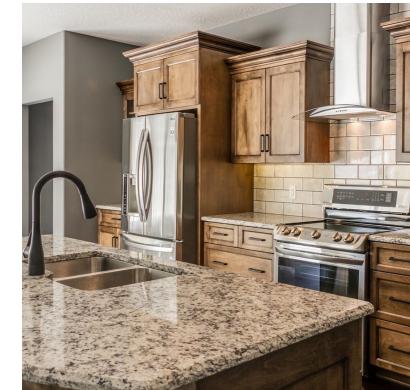

One of my goals is always to find myself in rooms full of people who are smarter than me.

As a Professional in the Construction industry, it is important to network, learn from others and be willing to learn how to constantly build a better house.

Thank You!

WOMEN IN CONSTRUCTION

Karen Kicinski
Co-Owner and Marketing Director
LifeStyle Homes Builders
